

The Future Is Taking Off

UPS, in collaboration with Matternet, WakeMed, North Carolina Dept. of Transportation, and the FAA, is using drones to take **healthcare logistics in the U.S. to new levels**. Now, medical samples can be transported **faster and more efficiently via these unmanned aerial vehicles (UAVs)**.

Drone delivery is one more way UPS is using breakthrough technologies to **support healthcare providers**.

SAVING TIME.

SAVING MONEY.

SAVING LIVES.
